

Dear Nick

Firstly, may I say that the quality and level of detail in the document is impressive and all those involved in its evolution and production should be congratulated.

The Southborough Society has included mention of the plan in our latest members' newsletter, and I propose to remind members of the deadline for response later this month. It is fair to say though this is only a small proportion of local residents

However, I am not aware of your plans to further publicise the Consultation. I have not personally registered anything about the plan on the Facebook pages for The Southborough Forum since February last year. I have also mentioned the plan to other local residents who were unaware of its existence, but there must be scope for using local/social media, clubs and societies, posters or leaflet drop, for example.

Could you please let me know briefly how you intend to promote the final stage of the Consultation as it would be beneficial to increase its visibility.

Regards

Brian Hall
Chair
The Southborough Society.
